A Printed **Letterhead**

Adds distinction or "class" to your correspondence. It isn't only the business firm or professional man who now raises his correspondence above the mediocre through aid of the printer's art.

Just your name and address in neat lettering at top or corner of the sheet will add an individual touch that at once raises your letter above the dead level of "ordinary".

The additional cost per letter is trifling.

But of course much depends on the printing.

Answers to Examination Questions Teachers in the Sunny State Pretty Near the Limit.

Island papers recently made a good deal of a joke out of the answers by some teachers at the Honolulu summer school to examination questions asked them. It should be some consolation, however, that Hawaii is not alone in communities where persons who know little aspire to teach. The following is a list of answers made by applicants for teachers' certificates in examinations recently held in Ten-
